

On Site - Staff Fire Awareness Training

Our staff fire awareness course is a certificated course that defines, assists and instils confidence to your staff within your workplace regarding fire.

Course aims

By the end of the staff fire awareness course your staff will have:

- A greater awareness of the dangers of fire and smoke
- Awareness of all fire safety measures within a workplace
- An understanding of their actions in the event of fire
- Confidence in identifying and operating firefighting equipment
- Awareness of potential fire hazards within a workplace

Key Learning Outcomes

At the end of the course delegates will be trained to:

- Understand the importance of good fire safety management
- Awareness of all fire safety measures in the workplace
- Understand their actions in the event of fire and operation of the fire alarm
- Confidence in identifying and operating the correct fire fighting equipment
- Explain common causes of fire in the workplace
- Assist the company in simulated and live emergency evacuation situations

With this course all delegates have the opportunity to operate a fire extinguisher on a real fire scenario, using our fire training simulator. Please be aware that for us to operate the fire simulator we would require an outside area of approximately 2 car parking spaces.

The training would include PowerPoint presentation, group discussions and be supported with a visual aid (DVD). The fee for this training includes all training aids, course hand-out (Fire Safety Made Easy - Book (35 pages) and assumes that the training takes place at your location.

Course Numbers

20 delegates per course
